Summary

Results-driven Software Engineering intern with a two-year stint at Sysco LABS and Imigap. Specializing in Spring Boot and React, I bring a versatile tech stack, including NodeJS, MongoDB, Elasticsearch, GraphQL, Azure, Docker, PostgreSQL, Firebase, and more. My passion lies in using software engineering as a tool to solve real-world business challenges. With a background in supply chain management and finance from CIMA, I offer a unique blend of technical expertise and domain knowledge. Outside work, I'm a karting enthusiast, showcasing the same determination on the racetrack as I do in my projects. Ready to contribute impactful solutions to drive business success.
